 1-819-758-1541

Identified uses : Industrial applications: Degreaser Disinfectant. Uses advised against : Only use this product as directed. Read label before

DIN #00513032 Approved for use in Food & Beverage using.

Date of issue (YYYY-MM-DD) : 2017-11-22

plants.

In case of emergency : Emergency phone: CANUTEC (613) 996-6666 (Collect calls accepted)

# 2. HAZARDS IDENTIFICATION

Information in this section only concerns the product as supplied. Contact your account manager to get more information on diluted form hazards identification.

Product Classification : SKIN IRRITATION - Category 2

SERIOUS EYE DAMAGE - Category 1

Signal word : Danger Hazard pictograms

**Hazard statements** : May cause severe eye damage.

May cause skin irritation.

Precautionary statements

General : Corrosive material. Handle with care. Read label before use. Keep out of reach of children.

Prevention : Wash hands thoroughly after handling. Specific protective equipment is suggested for this product. See section 8 for details.

Response : IF ON SKIN: Take off contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical attention. Rinse with water.

IF IN EYES: Remove contact lenses, if present and easy to do. Continue rinsing.

Storage : No specific measure needed. See section 7 for more information on handling and storage.

Disposal : No specific measure needed. See section 13 for waste disposal information.

Supplemental label elements : No additional information.

Other hazards which do not result in

classification

: None known.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/mixture : Mixture

 tetrapotassium pyrophosphate
 7320-34-5
 1 - 5

 Alcohols, C12-15, ethoxylated
 68131-39-5
 1 - 5

 disodium metasilicate
 6834-92-0
 1 - 5

 Ethanol
 64-17-5
 0 - 1

Occupational exposure limits, if available, are listed in Section 8.

#### 4. FIRST AID MEASURES

#### Description of required first aid measures

Eye contact In case of contact with eyes, flush with fresh water. Check for and remove any contact lenses. Continue rinsing. If irritation persists, get

medical attention. Chemical burns must be treated promptly by a physician. Get medical attention if blistering occurs or redness persists.

Skin contact Remove contaminated clothing and wash it before reuse. Chemical burns must be treated promptly by a physician. Get medical attention if

blistering occurs or redness persists.

Ingestion Rinse mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Chemical burns must be treated promptly

by a physician. Get medical attention if symptoms occur.

Inhalation Move victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer

should wear an appropriate mask or self-contained breathing apparatus. Get medical attention if adverse health effects persist or are

severe. Maintain an open airway.

#### Most important symptoms/effects, acute and delayed

**Eye contact** Adverse symptoms may include the following:

pain watering redness

**Skin contact** Adverse symptoms may include the following:

pain or irritation

redness

blistering may occur

**Ingestion** Adverse symptoms may include the following:

stomach pains

**Inhalation** No specific symptoms under normal use conditions.

Notes to physician Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

See toxicological information (Section 11)

## **5. FIRE-FIGHTING MEASURES**

**Extinguishing media** 

Unsuitable extinguishing media None known.

Specific hazards arising from the In a fire or if heated, a pressure increase will occur and the container may burst.

chemical

Hazardous thermal decomposition products Decomposition products may include the following materials:

phosphorus oxides metal oxide/oxides

Special fire-fighting procedures Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action should be taken

involving any personal risk or without suitable training.

Special protective equipment for fire- Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a

fighters full face-piece operated in positive pressure mode

D-4055 Page: 2/5

# Personal precautions No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Initiate spill response procedures if required. Personal protection Put on appropriate personal protective equipment (see Section 8). Cleaning method Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Use a water rinse for final clean-up.

	7. HANDLING AND STORAGE			
Handling	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See Section 8 for additional information on hygiene measures.			
Storage and Incompatibility	Store in accordance with local regulations. Separate from acids. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Keep out of reach of children. Store away from incompatible materials (see Section 10).			

	8. EXPOSURE CONTROLS/PERSONAL PROTECTION
Occupational exposure limits	
None.	
Appropriate engineering controls	If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
Individual protection measures	
Eye/face protection	Continued or severe exposures might required to wear a face shield or chemical splash goggles. It is minimally suggested to wear safety glasses while using or handling this product.
Hands and Body protection	It is suggested to wear chemical-reisitant gloves while using or handling this product.
	It is suggested to wear safety apron while using or handling this product.
Respiratory protection	No specific protective equipment required under normal use conditions.

	9. PHYSICAL AND CHEMICAL PROPERTIES				
Physical state	Liquid. [Transparent liquid ]	рН	13	Flash point	[Product does not sustain combustion.]
Color	Green. [Dark]	Relative density	1.07	Melting point	Not available.
Odor	Lemon like. [Slight]	Viscosity	Not available.	Boiling point	Not available.
Odor threshold	Not available.	Vapor pressure	Not available.	Fire point :	Not available.
Solubility in water :	Not available.	Vapor density :	Not available.	Evaporation rate :	Not available.
Decomposition tempera	ture : Not available		Auto-ignition temperature	: Not available.	
Partition coefficient: n- water	octanol/ : Not available		Flammability (solid, gas)	: Not available.	
Lower and upper explosiv	re (flammable) limits	: Not available.			

10. STABILITY AND REACTIVITY				
Reactivity	No specific test data related to reactivity available for this product or its ingredients.			
Chemical stability	The product is stable.			
Incompatible materials	Reactive or incompatible with acids.			
Conditions to avoid	No specific data.			
Possibility of hazardous re	actions May cause an exothermic reaction in presence of acids.			
Hazardous decomposition	products Under normal conditions of storage and use, hazardous decomposition products should not be produced.			

D-4055 Page: 3/5

#### 11. TOXICOLOGICAL INFORMATION

Route of exposure Routes of entry not anticipated: Oral, Dermal, Inhalation.

Potential acute health effects Symptom

Eye contact May cause eye burn Adverse symptoms may include the following:

pain watering redness

Skin contact May cause skin irritation. Adverse symptoms may include the following:

pain or irritation

redness

blistering may occur

Ingestion May cause burns to mouth, throat and stomach. Adverse symptoms may include the following:

stomach pains

**Inhalation** No known significant effects or critical hazards. No specific symptoms under normal use conditions.

# Toxicity data

Product/ingredient name	Result	Species	Dose	Exposure
tetrapotassium pyrophosphate	LD50 Dermal	Rabbit	>4640 mg/kg	-
	LD50 Oral	Rat	1001 mg/kg	-
Alcohols, C12-15, ethoxylated	LD50 Oral	Rat	2 g/kg	-
	LD50 Oral	Rat	4150 mg/kg	-
disodium metasilicate	LD50 Oral	Mouse	770 mg/kg	-
	LD50 Oral	Rat	1153 mg/kg	-
	LD50 Oral	Rat	1153 mg/kg	-

#### Information on toxicological effects

Mutagenicity

No known significant effects or critical hazards.

Teratogenicity

No known significant effects or critical hazards.

Developmental effects

No known significant effects or critical hazards.

Fertility effects No known significant effects or critical hazards.

Sensitization Not available.

Carcinogenicity No known significant effects or critical hazards.

# 12. ECOLOGICAL INFORMATION

# **Ecotoxicity data**

Product/ingredient name	Result	Species	Exposure
Alcohols, C12-15, ethoxylated	Acute EC50 0.7 mg/l Fresh water	Algae - Pseudokirchneriella subcapitata	96 hours
	Acute EC50 0.39 mg/l Fresh water	Crustaceans - Ceriodaphnia dubia - Neonate	48 hours
	Acute EC50 302 μg/l Fresh water	Daphnia - Daphnia magna - Neonate	48 hours
	Acute LC50 1400 µg/l Fresh water	Fish - Pimephales promelas	96 hours
	Chronic NOEC 1 mg/l Fresh water	Algae - Pseudokirchneriella subcapitata	96 hours
	Chronic NOEC 83 µg/l Fresh water	Daphnia - Daphnia magna - Neonate	21 days
disodium metasilicate	Acute EC50 33.53 mg/l Fresh water	Crustaceans - Ceriodaphnia dubia - Neonate	48 hours
	Acute LC50 2320 ppm Fresh water	Fish - Gambusia affinis - Adult	96 hours

Persistence and : Unknown Bioaccumulative potential : Unknown Mobility in soil : Unknown Other adverse effects : Unknown degradability

D-4055 Page: 4/5

#### 13. DISPOSAL CONSIDERATIONS

Disposal methods Dispose content and container in accordance with local, regional and national regulation in force.

14. TRANSPORT INFORMATION					
	UN number	UN proper shipping name	Transport hazard class (es)	Packing group	TDG Placard
TDG Classification	1760	Corrosive liquid, n.o.s. (sodium metasilicate)	8	Ш	

15. REGULATORY INFORMATION

Additional information See shipping documents for specific information on DOT, IMDG or IATA

#### Canadian lists

Canadian NPRI None of the components are listed. **CEPA Toxic substances** None of the components are listed. Canada inventory At least one component is not listed.

International lists

**United States** Not determined.
